

Internet Research Task Force Plenary Report

Colin Perkins
IRTF Chair

IETF 112 / 3 November 2021

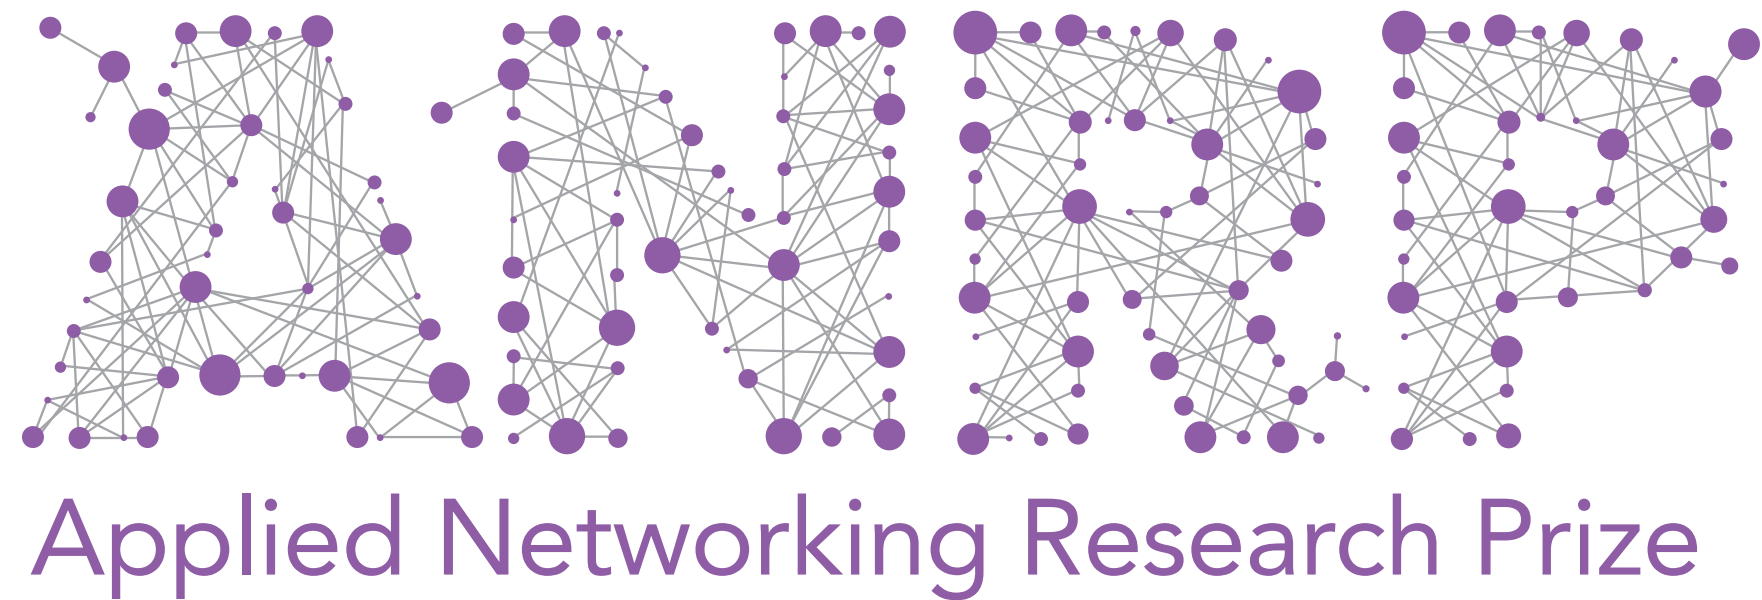

Applied Networking Research Prize

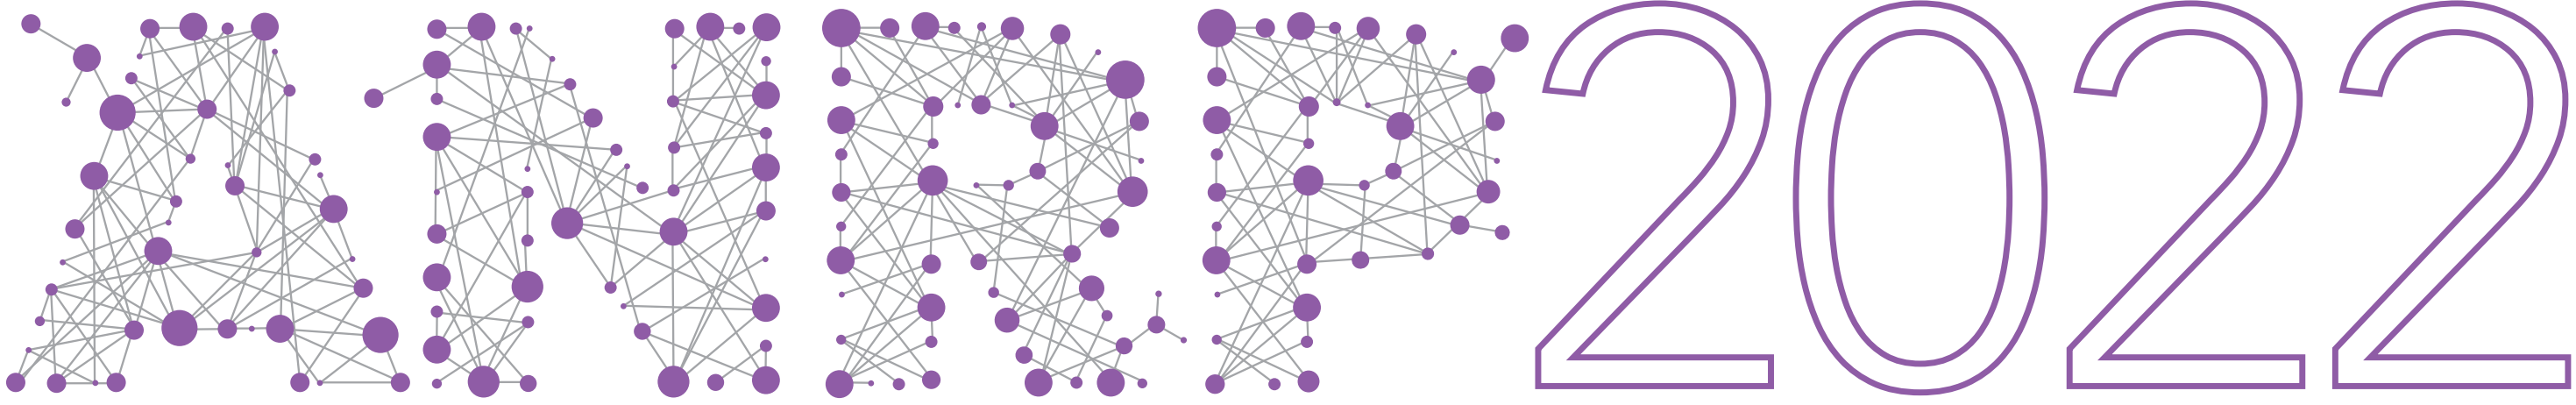

**Internet
Society**

- The Applied Networking Research Prize recognises:
 - the best recent results in applied networking
 - interesting new research ideas of potential relevance to the Internet standards community
 - and upcoming people that are likely to have an impact on Internet standards and technologies

- ANRP awards for IETF 112 will go to:
 - **Thomas Wirtgen** for his work on the extensibility of BGP implementations & other routing protocols
 - **Aqsa Kashaf** for her work studying the effects of third-party service dependencies in the Internet
 - **Kevin Bock** for his work on Internet censorship
- Watch the award talks during the IRTF Open Meeting, Tuesday, 9 November, 16:00 UTC or at <https://irtf.org/anrp/>

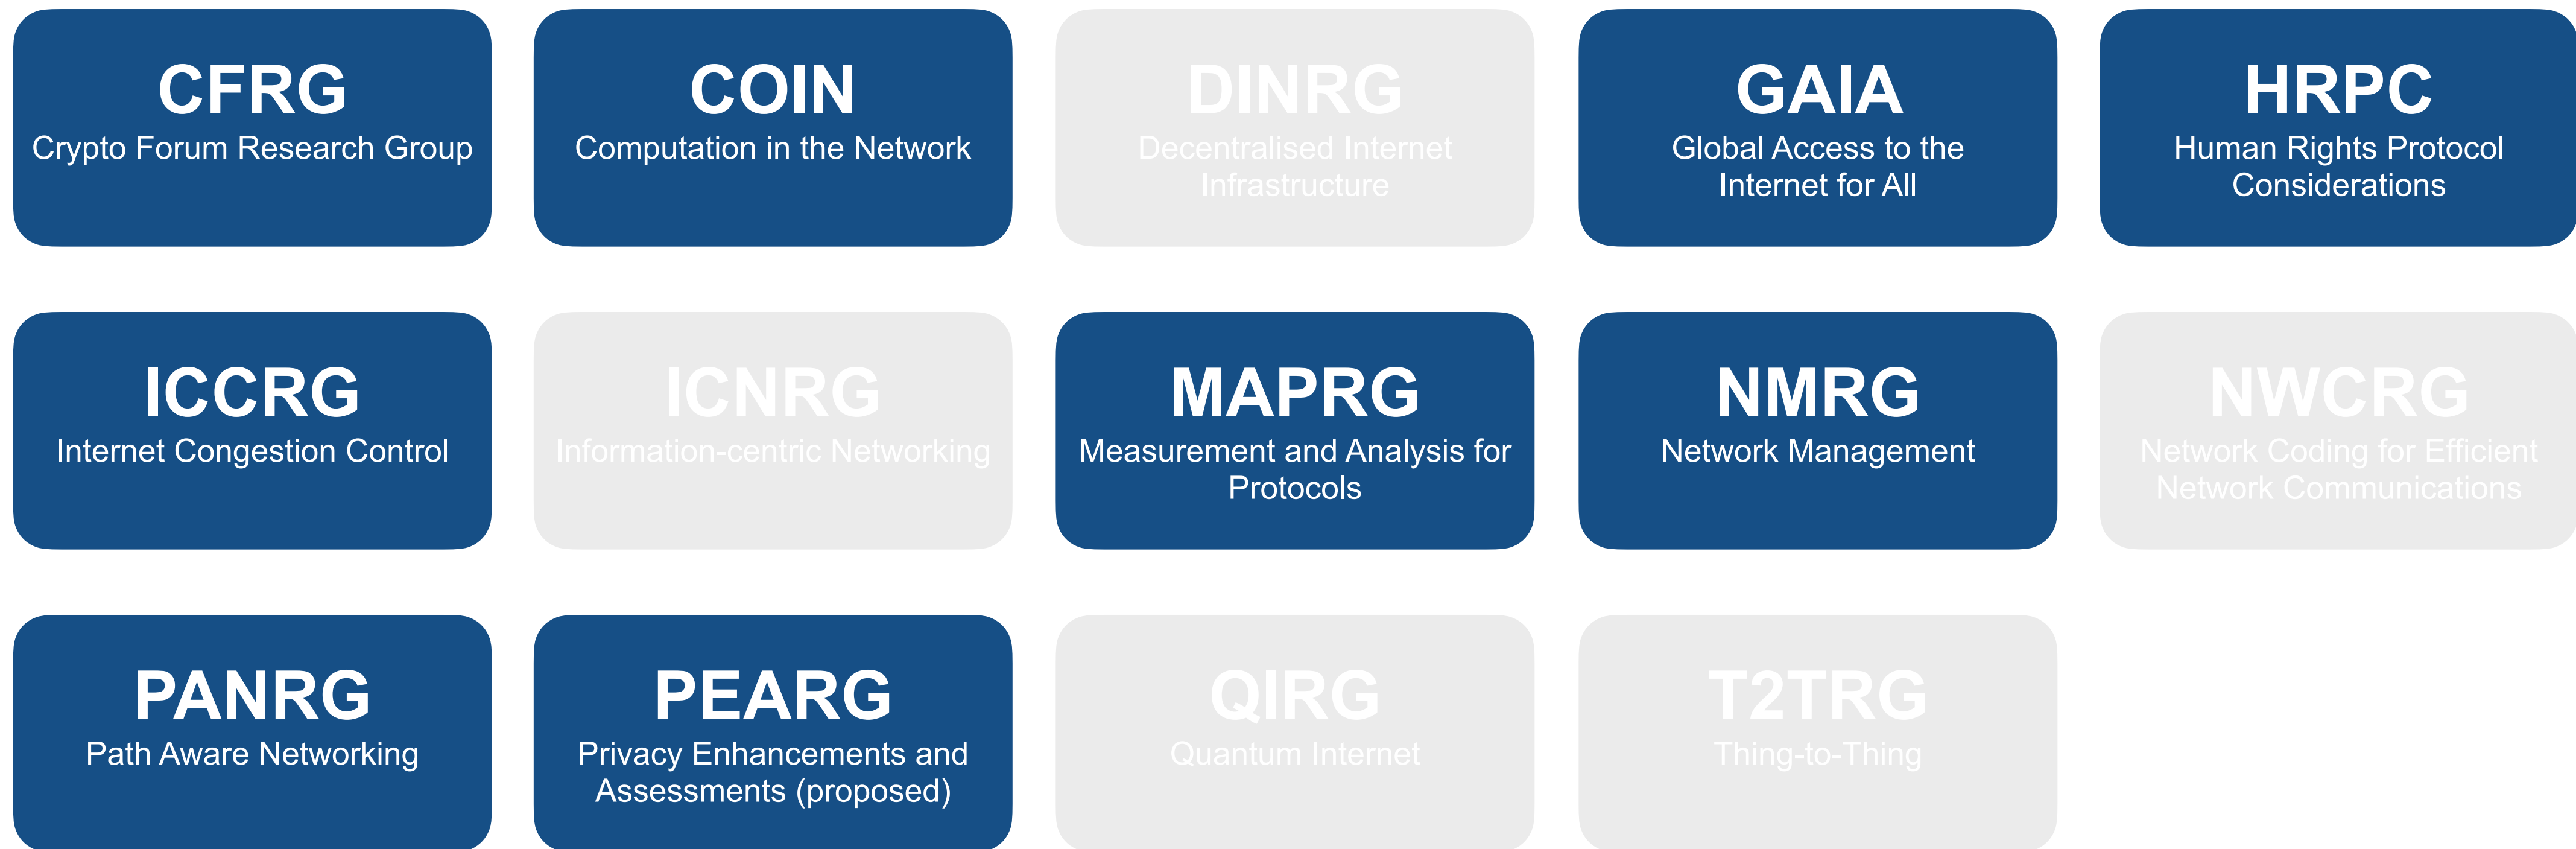

The logo for ANRP 2022 features the letters 'ANRP' in a stylized font where each letter is filled with a complex network of purple nodes and connecting lines. To the right of 'ANRP', the year '2022' is written in a simple, outlined purple font. Below this graphic, the full name 'Applied Networking Research Prize' is written in a solid purple, sans-serif font.

ANRP 2022
Applied Networking Research Prize

Nominations are open for ANRP 2022

Deadline: 19 November 2021
